BWC Division of Safety & Hygiene

The 2008 State recognized Western Stark County Safety Council is a joint program of the Bureau of Workers' Compensation Division of Safety & Hygiene and the Jackson-Belden Chamber of Commerce.

A small portion of your employer Workers' Compensation Premiums funds the Division of Safety & Hygiene. The funding provides for a number of direct and indirect services available to the employer. The goal of the Western Stark County Safety Council is to help reduce your workers compensation premiums by enhancing worker safety and health.

Membership will enable your organizations to take advantage of the savings afforded by eliminating or reducing workplace injuries and illnesses. Let us show you how as a leader, you can increase productivity, improve morale and impact your bottom line.

Membership is open to all, regardless of Chamber of Commerce membership status. There is no Annual membership Dues. Luncheons cost \$10.
